

Our energy makes yours cleaner

IMPCO Europe Technologies develops, manufactures and markets custom-made systems and products that support the use of clean burning gaseous fuels and reduce emissions from internal combustion engines to the lowest levels.

Through the years, we have become an experienced partner for Original Equipment Manufacturers (OEM's) and our distributors. Due to our strong commitment to quality, we have built an experienced team dedicated to meet our customers needs as well as producing products in accordance with the high emission standards.

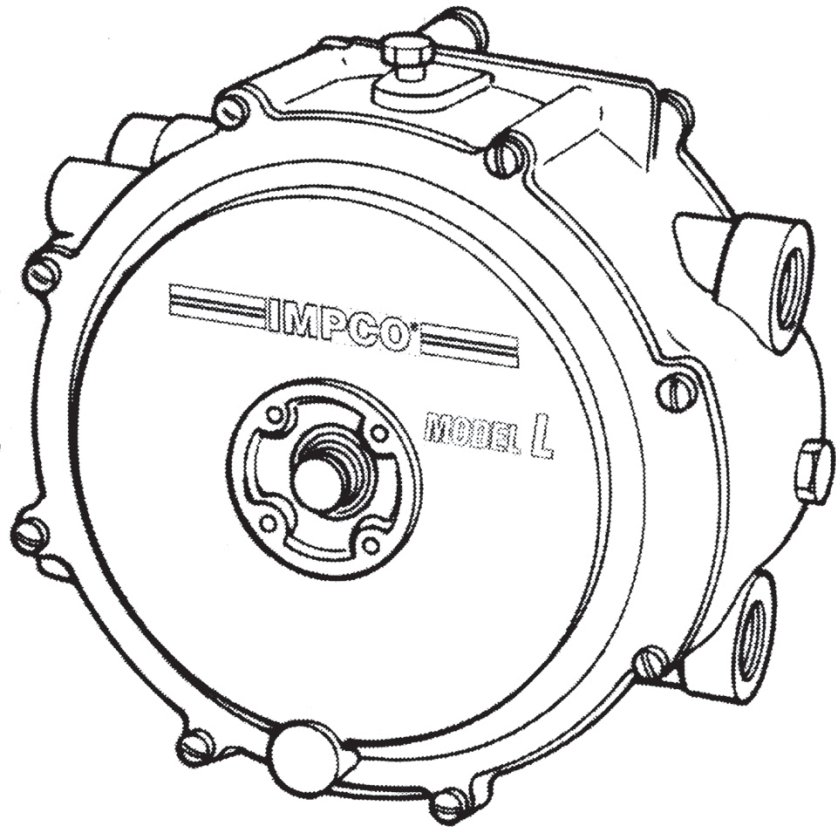

Our experience and dedication to the market have made us the leader in the material handling gaseous fuel industry in Europe. IMPCO Europe Technologies is ISO 9002 certified since 1994 and more recently received the ISO 9001 : 2000 certificate in 2001.

E & PE CONVERTER

The IMPCO model L is a two-stage regulators / converters. This unit are coolant heated and are able to provide liquid vaporization to supply up 150 kW in industrial engine applications.

No optional pressures are available.

The model L offers economical performance with full features: rear fuel inlet and primary and secondary diagnostic test ports.

TECHNICAL DATA

Fuel	LPG
Temperature range	-40C° to 121C°
Rating	until 242 kW (325hp)
Outlet pressure	standard -1.5 w.c.
Heating chamber source	Engine coolant
Mounting position	Vertical recommended

L converter

Repair kits

RK-L-2
