

IMPCO is the world leader to the Original Equipment Manufacturer market and after market in supplying gaseous fuel management, storage systems and components that allow internal combustion engines to operate on clean alternative fuels such as Propane (LP Gas) and Natural Gas.

Our business is the technology development, manufacturing and world wide marketing of products that support the efficient use of alternative fuels in propulsion systems. We are committed to providing quality, reliable and cost effective products and systems with high customer value and a better environment.

IMPCO-BERU Technologies BV is an ISO 9001:2000 certified company.

# IMPCO SPEED LIMITER

## FEATURES AND BENEFITS

- Two programmable speeds in km/h
- Available in 12V & 24V
- Dedicated kits available
- Simple and quick installation
- Electromagnetic compatibility

## APPLICATIONS

All Drive By Cable vehicles running on gasoline, Diesel or LPG.

**A modular solution  
for smooth speed limiting  
of mobile equipment.**

# IMPCO SPEED LIMITER KITS

Actuator

ECU

Brackets

Wiring loom

## DEDICATED KITS AVAILABLE

Caterpillar	Nissan
Hyster	Samsung
Komatsu	Toyota
Mitsubishi	Fantuzzi
Tracma	

## WORKING PRINCIPLE

Speed can be set in kilometers per hour.

A second speed can be set which is activated by means of a switch, remote sensor, etc.

## A modular solution for smooth speed limiting of mobile equipment.

The IMPCO Speed Limiter Kit is a modular system that can be used in a wide variety of applications. These systems were designed to operate in the smoothest way to guarantee highest comfort and safety.

- Forklift Trucks
- Cranes
- Airport Equipment
- Street Sweepers
- Construction Equipment
- Public Transportation
