

*Our energy makes yours cleaner*

IMPCO Europe Technologies develops, manufactures and markets custom-made systems and products that support the use of clean burning gaseous fuels and reduce emissions from internal combustion engines to the lowest levels.

Through the years, we have become an experienced partner for Original Equipment Manufacturers (OEM's) and our distributors. Due to our strong commitment to quality, we have built an experienced team dedicated to meet our customers needs as well as producing products in accordance with the high emission standards.

Our experience and dedication to the market have made us the leader in the material handling gaseous fuel industry in Europe. IMPCO Europe Technologies is ISO 9002 certified since 1994 and more recently received the ISO 9001 : 2000 certificate in 2001.

# COBRA CONVERTER

The COBRA series is a converter deliver superior performance and excellent pressure output consistency throughout service life. Three vapor outlet pressures are available following the catalyst equipment on the application.

The COBRA converter are the last evolution of the older IMPCO J and K converter.

## TECHNICAL DATA

Fuel	.....	LPG, GNV
Temperature range	.....	-40C° to 121C°
Rating	.....	until 75 kW (100hp)
Outlet pressure	.....	standard -1.5 w.c.
		Cobra I -0.5 w.c.
		Cobra II -0.05 w.c.
Heating chamber source	.....	Water, oil, exhaust heat
Mounting position	.....	Vertical recommended
Diaphragm	.....	hydrin ou silicone
